EXPERIENCE

Junior Front End Developer

Commude Philippines Inc. Jun 2024 - Sep 2025

Developed responsive and pixel perfect web pages for Japanese client projects. Translated UI designs into clean and responsive layouts. Implemented client-requested revisions and collaborated with design and QA teams to ensure quality. Converted static web sites for WordPress theme customization, using ACF and plugins.

Associate Software Engineer

Hitachi Digital Payment Solutions Mar 2023 - Dec 2023

Worked with a diverse team to build applications for Japanese client projects. Added new features to company projects. Implemented revisions and collaborated with QA teams to ensure quality. Resolved bugs that were identified in company projects. Participated in company activities.

Developer Intern

Symph Jan 2022 - May 2022

Worked within a team of fellow web developers in an Agile environment. Added new features to one of the company projects. Identified and resolved bugs in company projects. Analyzed and tested source code to fix functionality and design issues. Participated in company activities.

PROJECTS

Eisai

Junior Front End Developer Jun 2025 - Aug 2025

eisai.jp/promotion/stomach, eisai.jp/promotion/stomach/pariets, eisai.jp/promotion/stomach/selbelle

Collaborated with a team to design and develop three key web pages for Eisai's pharmaceutical series, including products for motion sickness and gastrointestinal health. My contributions involved front-end development, ensuring the pages were accurate to design, responsive, and user-friendly.

Responsibilities:

- Converted designs into HTML.
- Responsive web designs.

Tools: Visual Studio Code, Prepros, Adobe Illustrator, HTML5, CSS3, PugJS, SCSS, Javascript

Hoken Recruit

Junior Front End Developer Mar 2025 - Jul 2025

recruit.mhompco.co.jp

Worked on the development of a recruitment website for Hoken, a holding company in the insurance industry. The site offers dedicated sections for both new graduate and mid-career recruitment, enabling potential applicants to easily navigate through job opportunities and application processes. My role included building responsive pages, optimizing the user experience, and implementing animations to make the website more eye-catching.

Responsibilities:

- Converted designs into HTML.
- Converted the static website for customized WordPress theme.
- Implemented WordPress taxonomies, post types, advanced custom fields.
- Responsive web designs and web page animations.

Tools: Visual Studio Code, Prepros, Figma, HTML5, CSS3, PugJS, SCSS, Javascript, JQuery, WordPress, PHP

Tully's Coffee

Jul 2024 - Jul 2025

tullys-cup.jp/tullys_cp2409

Developed a campaign landing page for Tully's Coffee, allowing customers to participate by submitting a photo of their receipt to earn points. Users could then redeem points for prizes and enter a lottery for a chance to win. I was responsible for translating the layout from the design and integrating interactive accordion features to the page.

Responsibilities:

- Converted designs into HTML.
- Responsive web designs.

Tools: Visual Studio Code, Prepros, Adobe XD, HTML5, CSS3, PugJS, SCSS, Javascript
